# ORANGE WINES OF THE WORLD

What is orange wine? Wine that is aged on its skin, often in a oxidative manner. These wines can have sharp or soft textures. Acidity can vary but is normally high. The skin contact gives these wines tannin, which is great for meat.

**ORGO RKATSITEL IS ONE OF THE FIRST WINES EVER RECORDED**

**CHATEAU YVONNE**

**GRAVNOR IS PRODUCED SOLEY BY THE LUNAR CYCLES AND BIODYNAMIC CALENDAR**

**ESCODA -SANAHUJA HAS FUNKY CIDER NOTES WITH EARTH**

**COS IS BALANCE OF SOFTER TANNINS AND APPLE**

**DOMAINE ECONOMOU HAS A GREAT BALANCE OF ACID AND HONEY**

**MEINKLANG IS AN INTRODUCTION TO ORANGE WINE WITH NOTES OF STONE FRUIT**

**PAOLO BEA IS A BLEND OF 5 GRAPES WITH ASIAN PEAR AND HIGHER ACIDITY**

# LAMBRUSCO

Emilia Romagna is home to Parmigiano Reggiano, Balsamic, Prosciutto, Lambrusco and many other iconic Italian gems. It's no coincidence that the capital of Emilia Romagna is named Bologna, which means "the fat one". If you were to walk around the streets of Bologna, you'd likely have a cup or cone of meat in one hand and a tumbler of Lambrusco in the other. The acidity and fresh fruit in Lambrusco is ideal for warm days and the dry tannins are made soft by rich meats. Most Lambrusco is made by large cooperatives that ship millions of cases to the USA, and these wines are typically unimpressive off dry to sweet swill. Quality Lambrusco, on the other hand, can be as dry as Extra Brut Champagne and every bit as tasty. At The Partisan, we salute artisanal producers of perhaps the best beverage you could conceivably pair with fine charcuterie.

### BUFFALO TRACE

BUFFALO TRACE DISTILLERY / FRANKFORT, KY / 90 PROOF

*As part of an ongoing experiment for the last few decades, Buffalo Trace has over 2,000 barrels of whiskey aging in their warehouses that showcase different recipes and barrel treatments. Each experiment is meant to test the characteristics imparted throughout the production process and highlight subtle differences in mash bills, barrel toasts, types of wood, and more.*

*Released in 2014, this experiment tested how Buffalo Trace's Rye Mash recipe #1 ages on three different warehouse floors over 12 years.*

### EXPERIMENTAL COLLECTION: 12 YEAR FLOOR 1

*DELICATE FLAVORED BOURBON THAT IS SUBTLY SWEET, WITH A MILD OAK TASTE*

*The Single Oak Project is its most inventive and comprehensive Buffalo Trace experiment yet. In 1999, 96 American oak trees that differed according to the number of growth rings per inch and growing location were selected and cut into two parts, top and bottom, yielding 192 unique tree sections. A single barrel was constructed from each section with varying stave seasonings and all 192 barrels were charred differently. These single oak barrels were then filled with different recipe whiskeys, at various entry proofs and aged in a variety of different warehouse styles.*
